Encourage staff to wash your hand regularly. Staff & Customers must be mind-full of all touch surfaces they come into contact with, handrails doors, and surfaces once touched we would encourage you to wash your hands thoroughly
--	---	--

Hazard: Cross contamination

<p>Risk:</p> <ul style="list-style-type: none"> Lack of Cleaning programmes Children's play equipment Hand dryers & Hair dryers 	<p>Customers Staff Contractors & Visitors</p>	<ul style="list-style-type: none"> Deep cleaning schedules should remain in place Regular touch point cleaning to remain in place <p>Additional measures that will be taken:</p> <ul style="list-style-type: none"> All staff are responsible for cleaning Hand washing posters on the display within the toilets to encourage people to wash their hands. Encourage Customers to clean down the gym equipment after use by providing blue
--	---	---

List significant hazards	List groups of people who are at risk from the significant hazards identified	List existing control measures or note where the information may be found List risks which are not adequately controlled on the risk reduction plan
		roll and D10 spray bottles. Provide gym etiquette signage. Continue to clean Children’s play equipment this should be washed at every opportunity especially if the toy is being played with by more than one child. All play equipment must be disinfected throughout the day.
Hazard: Lack of Cleaning/ communication and recording		
Risk: <ul style="list-style-type: none"> • Cleaning schedules • Fogger ‘Storm back pack machines’ • Covid-19 suspected outbreaks • Chemical Contact time 	Customers Staff Contractors & Visitors	<ul style="list-style-type: none"> • Cleaning must continue to be recorded and completed thoroughly. • Storm Fogger Back-pack cleaning machines have been distributed across all contracts. A work instruction has been issued. • Training must be delivered to staff using the ‘Storm fogger’. D10 suma bac is the chemical that is used to operate this machine although the Vanitorials product can also be use see data sheet for guidance. • If sites have confirmed confirmation of a customers or staff member who has been diagnosed with the Covid-19 this must be reported to SLT • ‘Contact time’ or ‘Wet time’ which means they need to be left ‘wet’ for a few minutes before being wiped away, this give the chemical time to do what it needs to do i.e kill bacteria and viruses.
Hazard: Centre’s taking Cash payment		
Risk: <ul style="list-style-type: none"> • Lack of other payment methods 	Customers Staff Contractors & Visitors	<ul style="list-style-type: none"> • Customers may wish to make payments via debit or credit card or payment in advance. • If cash handling is the only method for some customers, receptionist should wash their hands regularly

List significant hazards	List groups of people who are at risk from the significant hazards identified	List existing control measures or note where the information may be found List risks which are not adequately controlled on the risk reduction plan
--------------------------	---	--

Hazard: Pregnancy

<p>Risk:</p> <ul style="list-style-type: none"> • Socialisation • Expectant Mothers • Wet & Dry Building Activities 	<p>Customers Staff Contractors & Visitors</p>	<p>Staff that have informed you of a pregnancy must have a separate risk assessment carried out for them, this risk assessment can be found on corp docs Health & Safety Tool Box. Relevant staff should have training on how to complete the risk assessment.</p>
--	---	---

Hazard: Providing First Aid & Staff Training in First Aid

<p>Risk:</p> <ul style="list-style-type: none"> • Cross contamination through Customer contact & of resus Annie Manikin & close contact equipment • Disposal of bodily fluids • CPR – Adults/Child & Paediatric • Manikin management 	<p>Staff/Customers/Visitors & Contractors</p>	<p>Only trained First Aid Staff are permitted to carry out first aid. Ensure all first aid is documented on the Accident/Incident report form and added into stitch. When administering first aid ensure you are wearing gloves and have a face mask on as closer contact maybe necessary. Ensure you wash your hands after you have administered the first aid and clean down any surfaces once they have left the first aid room or area. Following guidance from Resuscitation Council UK (RCUK) and European Resuscitation Council (ERC), and RLSS UK. The Resuscitation Council UK video can be found here:</p> <ul style="list-style-type: none"> • https://www.youtube.com/watch?v=3MY0sRYfsRA <p>This also applies to a drowning casualty. Resuscitation Council UK provide additional guidance for pediatric casualties here: https://www.resus.org.uk/covid-19-resources/covid-19-resources-general-public/resuscitation-council-uk-statement-covid-19</p> <p>Safe disposal of bodily fluids must be via the yellow bags provided by your external contractor these are usually found within first aid room or for the disposal of nappies Stitch must be used to record any Covid-19 symptoms and test results from staff or Customers.</p>
--	---	--

List significant hazards	List groups of people who are at risk from the significant hazards identified	List existing control measures or note where the information may be found List risks which are not adequately controlled on the risk reduction plan
--------------------------	---	--

Hazard: Air-handling units

<p>Risk:</p> <ul style="list-style-type: none"> • Filters not being cleaned • Poor operation of unit lack of flow • Lack of checks being carried out • Poor air quality • Running Air-con units unnecessarily 	<p>Staff, Customers, Visitors, Contractors</p>	<p>The air-conditioning and air handling units will be serviced in line with manufacturer’s guidelines to ensure they are working to specification by a suitable competent engineer.</p> <ul style="list-style-type: none"> • PPE must be worn at all times whilst working on the A/C and Air –handling units.’ • All filter cleans must be recorded and logged. • A risk assessment should be created to identify any areas in your building that does not have any fresh air exchange or has a low exchange of fresh air, any air-con units not in use should be switched off. Fresh air can be provided from: <ul style="list-style-type: none"> • Opening windows and door (passive) • Mechanical exchanged via air –handling and air-con units • Identify in each area if it is passive or mechanical air exchange <p>If you believe any of your AHU’s are not operating correctly you must contact the FM team who will assist you.</p>
--	--	--

Hazard: Getting tested self-isolation and Track, Test & Trace

<p>Risk:</p> <ul style="list-style-type: none"> • Ignoring signs and symptoms • Transmitting to others • Signs and symptoms 	<p>Staff/Customers/Visitors/Contractors</p>	<p>You must communicate to your Line Manger if we are not feeling well and have signs or symptoms of having coronavirus.</p> <p>What the removal of self-isolation rules means for our workforce</p> <p>From 24 February, you are no longer legally required to self-isolate following a positive test. If you are not fully vaccinated, you no longer need to self-isolate if you come into close contact with someone with COVID-19.</p> <p>The legal requirement to self-isolate in these circumstances is being replaced with government advice to individuals who test positive to:</p> <ul style="list-style-type: none"> • Stay at home and avoid contact with other people for at least five full days; at the end of this period, take two coronavirus tests results on consecutive days (which can be the fifth and sixth days); and return to their normal routine once they have two negative tests, as long as they do not have a temperature.
--	---	---

List significant hazards	List groups of people who are at risk from the significant hazards identified	List existing control measures or note where the information may be found List risks which are not adequately controlled on the risk reduction plan
		<ul style="list-style-type: none"> (Please refer to HR's brief) <p>Sign and symptoms of Covid-19</p> <ul style="list-style-type: none"> A high temperature – this means you feel hot to touch on your chest or back (you do not need to measure your temperature) A new, continuous cough – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual) A loss or change to your sense of smell or taste – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal you must report to your line manager if you feel unwell
Hazard: Building maintenance and Fire control		
<p>Risk:</p> <ul style="list-style-type: none"> Unmaintained buildings/obstructions Incorrect directional signage Unmaintained equipment 	<p>Staff/Customers/Visitors/Contractors</p>	<p>To continue to manage building operations of maintenance</p> <ul style="list-style-type: none"> Daily/weekly/monthly checks and inspections of equipment, Firefighting equipment, fire doors and fire exits checks complete scheduled fire drills and training to ensure your process works Update EAP's on fire routes/exits and directional routes To continue to send the weekly Covid-19 table to the FM support Manager
Hazard: Lack of communication of Government guidance and Company information		
<p>Risk: Lack of understanding /communication</p>	<p>Staff Customers, Visitors and Contractors</p>	<p>From 24 February the Government will:</p> <ul style="list-style-type: none"> Remove the legal requirement to self-isolate following a positive test. Adults and children who test positive will continue to be advised to stay at home and avoid

List significant hazards	List groups of people who are at risk from the significant hazards identified	List existing control measures or note where the information may be found List risks which are not adequately controlled on the risk reduction plan
		<p>contact with other people for at least 5 full days and then continue to follow the guidance until they have received 2 negative test results on consecutive days.</p> <ul style="list-style-type: none"> • No longer ask fully vaccinated close contacts and those aged under 18 to test daily for 7 days, and remove the legal requirement for close contacts who are not fully vaccinated to self-isolate. • End self-isolation support payments, national funding for practical support and the medicine delivery service will no longer be available. • End routine contact tracing. Contacts will no longer be required to self-isolate or advised to take daily tests. • End the legal obligation for individuals to tell their employers when they are required to self-isolate. <p>From 24 March, the Government will:</p> <ul style="list-style-type: none"> • Remove the COVID-19 provisions within the Statutory Sick Pay and Employment and Support Allowance regulations. <p>From 1 April, the Government will:</p> <ul style="list-style-type: none"> • Update guidance setting out the ongoing steps that people with COVID-19 should take to minimise contact with other people. This will align with the changes to testing. • No longer provide free universal symptomatic and asymptomatic testing for the general public in England. • Consolidate guidance to the public and businesses, in line with public health advice. • Remove the health and safety requirement for every employer to explicitly consider

List significant hazards	List groups of people who are at risk from the significant hazards identified	List existing control measures or note where the information may be found List risks which are not adequately controlled on the risk reduction plan
<p>COVID-19 in their risk assessments.</p> <ul style="list-style-type: none"> Replace the existing set of 'Working Safely' guidance with new public health guidance. <p>Please also refer to the Coronavirus Update sent out by the HR Director</p>		
<p>Hazard: Use of communal areas</p>		
<p>Risk: Staff rooms Kitchen areas</p>	<p>Staff/ Contractors</p>	<ul style="list-style-type: none"> Staff should be mindful of touch points when in communal areas All communal areas and toilets to be cleaned down regularly, enhanced cleaning regime should remain in place.
<p>Hazard: Nurseries & Home visits/Gym/ Swimming pool Specific information</p>		
<p>Risk: General operation</p>	<p>Staff/Visitors/Customers/Contractors</p>	<ul style="list-style-type: none"> Staff may wish to wear a face covering when circulating around a building or when entering into someone's home (Home visits) or when in close contact with others they do not normally meet. To continue with encouraging gym users to wipe down equipment after use and provide cleaning equipment To continue to clean floatation devises for swimming lesson etc. as per the covid cleaning regime Swimming teachers to go back to teaching from in the pool and not just from the poolside
