If you attend an activity or session in person, we will collect attendance data and we may also get personal data from our CCTV cameras.

And sometimes we will get personal data about you from others. For example, if your account or membership was created by your parent or guardian, we will collect the information your parent or guardian provided about you. If you use apps like Technogym, we will collect the information it provides about you when you use it.

Parental consent and control

Until you are 18 you need to have your parent or guardian's consent to become a member of one of our leisure sites.

However, at most of our sites once you are 14 you can book your own gym and swim sessions online.
